Gresik Petrokimia Pupuk Indonesia

About Team

A traditional club with a long history in Indonesian volleyball scene. One of those big clubs without Jakarta in their name. They produced a lot of national volleyball players when they are young before they are poached by some institutions. Even after all that they keep doing well and in 2024 they finally had a commercial academy to nurture more talents with the hope to help the team finally becomes a Proliga champions someday.

THE RISE OF INDONESIAN LOCAL SHOES

2025

2025

DID YOU NOTICE THAT NOWADAYS WE KEEP SEEING SOME COLOURFUL SHOES ON PLAYERS?
BELIEVE IT OR NOT SOME OF THEM WERE ACTUALLY PRODUCED BY AN INDONESIAN BRAND.
SO, I WILL HIGHLIGHT THREE LOCAL SHOES BRAND THAT WE ALWAYS SAW IN PROLIGA.

Indonesian Local Shoes

2023

Fixch

I think it began in Proliga 2023 when Fixch trying to penetrate the market by having some well known Indonesian volleyball player wear their products like Nizar, Shella, Tisya, and Marjose.

2024

Karge

Starting in 2024 (probably), they have partnership with a Proliga club before growing to three Proliga clubs in 2025. They had massive promotion this year by endorsing a lot volleyball players. Genuinely a lot.

2025

Hundred

I am starting to seeing this recently to be fair. Surprisingly, Hundred seems like a brand that focused in badminton. But yeah, interesting how they will penetrate the indonesian volleyball market in the future.
